

AURORA

Aurora: wall lamp for the sauna as well

A lamp with profile

Aurora: wall lamp made of rose salt with an oak frame

For the sauna and for interior design

Do you want a striking, powerful effect? Then you'll like the Aurora lamp from the Salt Relax® manufactory. The Aurora lamp consists of a wooden frame surrounding tiles out of rose salt. It exists in the SK variant for the sauna, and also the LED variant for the infrared cabinet and for interior design. The Aurora lamp likes to spread its soft light in hotels, doctors' practices, law offices, therapy rooms and in high-class gastronomy.

A good indoor atmosphere

Salt encourages a pleasant indoor atmosphere; it binds odours, has an antibacterial effect and purifies the air. The soft light of the Aurora LED calms and relaxes. The salt lamp is strikingly and impressively designed and is mounted on the wall. The air circulates through ventilation slits above and below. The salt bricks constantly emit trace elements into the air and ionise the air.

Salt and Feng Shui

Salt is of great importance in the teachings of Feng Shui. According to Feng Shui, there are five elements: earth, water, wood, fire and metal. Salt is associated with water; it is nourished by metal and wood is supported by salt. Those versed in Feng Shui use salt in order to neutralise negative energy flows. Our salt and salt-light objects are ideally suited for this purpose.

Products from the manufactory for wellness und living

Salt Relax® offers you designed salt lamps, salt and light objects for business rooms and for the private sphere. Treat yourself and your guests to the soothing atmosphere and the warm, orange-coloured light of the salt lamps from our Salt Relax® manufactory.

Quality tested

We use exclusively high-grade, tested components. The LED lamps ensure agreeable lighting, save energy and have a long service life.

Material and measurements

The Aurora LED is equipped with a remote-controlled dimmer. This enables you to easily adjust the intensity of illumination to your room.

The Aurora lamp consists of salt bricks which are mounted in an oak frame without using glue. According to the chosen size, it contains 4 to 6 salt bricks and weighs between 4 kg and 6 kg. You can order the lamp with a width of 1, 2 or 3 salt bricks. With a width of one brick, the lamp measures 12x22x23 cm. With two bricks it measures 12x32x23 cm. With a width of three bricks it measures 12x42x23 cm. Other dimensions are also possible. Just ask us for any information you need.
